

## earn your stripes by finding the right information

### There is no need to be in the superannuation maze any more with the CCH Superannuation Solution Finder!

Like many users of online information services, the information clutter you get can be most annoying when you have to spend hours sifting through large numbers of irrelevant hits to find the answer you are looking for.

The CCH Superannuation Solution Finder gets you out of the superannuation maze and eliminates the frustration and inefficiencies associated with superannuation research by ensuring that you get only the information you need and nothing you don't.

Built around CCH's authoritative range of superannuation products, all the information that you will need is at your fingertips. You can research across the whole range of superannuation taxation or superannuation regulation or compliance issues, such as:

- CCH's expert superannuation and regulation commentary
- all relevant Acts, Regulations and pending legislation
- APRA, ASIC and ATO circulars and releases
- tax and superannuation cases, including all Superannuation Complaints Tribunal determinations
- latest superannuation news and articles

Our superannuation experts have combed through every page of the available materials and have mapped each paragraph of the information to the relevant topics.

This allows you to select the topic(s) you wish to research and the type of the information you wish to find, thus filtering out any irrelevant hits. You can then further refine your search using simplified Boolean expressions to reach the precise answers you need.

Solution Finder brings together CCH's extensive pool of information services with expert analysis of complex issues and the ability to cross-search relevant information at a topic level. Cutting-edge technology then allows you to filter information and refine the research parameters to deliver precise results.

Pages and pages of information sources covering legislation, cases, commentary, best practice, news and more.

Mapped by our experts to relevant topic areas allowing you to cross-search multiple information sources at the key topic level.

Powerful search capability resulting in precise results.

Switch to the future  
with Solution Finder –  
your organisation can't afford  
to be without it

## The Superannuation Solution Finder is structured around key topics.

- TOPIC 20. All Topics: *Cover all of the above topics*

### Also available:

Tax Solution Finder

Corporations Law Solution Finder

Human Resources Solution Finder

OHS Solution Finder

Trade Practices Solution Finder

The topics were chosen on the basis of the discrete subject matter with which they deal and they largely reflect the diversity of the Acts and Regulations which impact on superannuation taxation and regulation and the different needs of superannuation professionals, trustees and their service providers.

### A search example

You wish to research payment of death benefits by a superannuation fund and the taxation consequences, you would use the Solution Finder as follows:

- 1 **Choose the topic(s)** – Income tax: Superannuation benefits – ETP Regulation: Fund administration, operation
- 2 **Enter keywords** – “death benefit ETP” in the “exact phrase” field and “death benefit payment” in the “all of the words” field
- 3 **Select the content categories** (eg CCH commentary, Cases, Legislation, News, Tax Office Materials, etc.)
- 4 **Press SEARCH**

Superannuation Solution Finder will search only that part of the database that our topic experts have told it are relevant to “death benefit ETP”. It will look for any data in the chosen categories that have the phrase “death benefit payment” or the word “death benefit”.

Eliminate the weakness of traditional search facilities that tend to reproduce a large number of irrelevant hits because they are based only on word or phrase matches, without any filtering process. Switch to the future with Solution Finder! Your organisation can't afford to be without it. Contact CCH now to find out more!
